

Wanyang Dai's Short CV

Department of Mathematics
Nanjing University
Nanjing 210093
China
Email: nan5lu8@nju.edu.cn

Wanyang Dai is a Distinguished Professor in Mathematics Department of Nanjing University, a Special Guest Expert in Jiangsu FinTech Research Center, President of Jiangsu Probability & Statistics Society, and Editor-in-Chief of Journal of Advances in Applied Mathematics, where his research includes stochastic processes related optimization and Pareto optimal control/game, admission/scheduling/routing protocols and performance analysis/optimization for BigData-Blockchain oriented cloud computing and wireless/wireline communication systems, forward/backward stochastic (ordinary/partial) differential equations and their applications to queueing systems, Internet of Things, energy and power engineering, etc. His “influential” papers are published in “big name” journals, e.g., Operations Research, Journal of Computational and Applied Mathematics, Queueing Systems, Mathematical and Computer Modeling of Dynamical Systems.

He received his Ph.D degree in applied mathematics jointly with industrial engineering and systems engineering from Georgia Institute of Technology, U.S.A., in 1996, where he worked on stochastics and applied probability concerning network performance modeling and analysis, algorithm design and implementation via stochastic diffusion approximation. **The breakthrough** results and methodologies developed in his thesis were cited, used, and claimed as “contemporaneous and independent” achievements by other subsequent breakthrough papers that were presented as “45 minute invited talk in probability and statistics” in International Congress of Mathematicians (ICM) 1998, which is the most privilege honor in the mathematical society. The designed finite element-Galerkin algorithm to compute the stationary distributions of reflecting Brownian motions (weak solutions of general dimensional partial differential equations) is also well-known to the related fields.

He was an MTS (permanent) in End-to-End Network Architecture Department of AT&T Bell Labs (now called Nokia Bell Labs) in U.S.A. from 1996-1999, where he was principal investigators and developers of several projects in telecommunication network architecture and design, network performance and financial engineering, operating system and database development to support various intelligent engines/models for strategy planning and BigData analytics in a “Plug-in and Play” manner, with some (nowadays called cloud computing) project won “Technology Transfer”.

He is editors of over 20 international journals ranging from pure mathematics to its applications (e.g., Wireless Engineering and Technology, Artificial Intelligence), General Chairs and plenary/keynote speakers of over 20 IEEE and international conferences, member/group leader of judge committee in mathematics for National Natural Science Awards of China. He was a visiting scholar in Academy of Mathematics and Systems Science of China, a Long Term Participant of IMA Annual Program of Probability and Statistics in Complex Systems: Financial Engineering, Communication Networks and Genomics in (U.S. based) Institute of Mathematics and Its Applications (IMA), a visiting professor in Department of Systems Engineering and Engineering Management in Chinese University of Hong Kong.

Wanyang Dai's CV

Department of Mathematics
Nanjing University

• Education

- **Ph.D.** (1992-1996) in Applied Mathematics jointly with Industrial Engineering and Systems Engineering, Georgia Institute of Technology, Atlanta, Georgia, U.S.A.
 - * **Thesis:** Brownian approximations for queueing networks with finite buffers: modeling, heavy traffic analysis and numerical implementations
 - **Important Impact:** The breakthrough results and methodologies developed in his thesis were cited, used, and claimed as “contemporaneous and independent” achievements by some other subsequent breakthrough papers that were presented as “45 minute invited talk in probability and statistics” in International Congress of Mathematicians (ICM) 1998, which is the most privilege honor in the mathematical society. The designed finite element-Galerkin algorithm to compute the stationary distributions of reflecting Brownian motions (weak solutions of general dimensional partial differential equations) is also well-known to the related fields.
- **M.S.** (1985-1988) in Operations Research and Control Theory, Shanghai University, Shanghai, China
 - * **Thesis:** Stochastic (optimal) adaptive control for time-varying systems
- **B.S.** (1981-1985) in Mathematics, Nanjing Normal University, Nanjing, China
 - * **Thesis:** Properties of some functional operators

• Employment History

- **(3rd-Level) Distinguished Professor (Ph.D. Advisor)**, Department of Mathematics (2015–), Nanjing University, Nanjing, China
 - * In normal situation, a full professor (+ Ph.D. advisor) with outstanding scientific achievements and at least 12 years' working experience of the level has the possibility to be awarded such a distinguished position from the university
- **Professor (Ph.D. Advisor)**, Department of Mathematics (2004–2015), Nanjing University, Nanjing, China
- **Associate Professor** (1999–2004), Department of Mathematics, Nanjing University, China
- **MTS** (Permanent, 1996-1999), End-to-End Network Architecture Department, AT&T Bell Labs (now called Nokia Bell Labs), Warren, New Jersey and Atlanta, Georgia, U.S.A.
 - * **Won “Technology Transfer” Project: SimNet**

- Principal investigator and developer
- Multi-million U.S. dollar and multi-organization “lightning” research and development (R&D) project
- Involves developing a network core system in initiating and creating platform/software as a service (nowadays called “cloud computing”) together with numerous computational and management intelligent engines/models for strategy planning and big data analysis in a “Plug-in and Play” manner
- * **Listening Post**
 - Independent investigator and developer
 - An interactive system between end-users and network platform/software as a service (cloud computing service)
- * **Other Major Projects**
 - Lucent network vision, participant
 - Lucent VPN (IP/ATM) network performance, participant
 - etc.
- **Teaching/Research Assistant** (1992-1996), School of Mathematics and School of Industrial and Systems Engineering, Georgia Institute of Technology, Atlanta, Georgia, U.S.A.
 - * Also worked as instructor to teach a course independently several times (1994-1996)
- **Assistant Professor** (1988-1992), Probability and Statistics Group, Department of Mathematics, Nanjing University, Nanjing, China
 - * Worked on stochastic adaptive optimal control, system identification, time series analysis and stochastic processes (especially martingale related convergence analysis)
 - * Worked on the project “Stochastic Stability and Control” supported by National Science Foundation of China (1989-1991, principal investigator and proposal writer of control part of the project)
- **Visiting Positions**
 - **Visiting Professor** (March-May, 2007), Department of Systems Engineering and Engineering Management, The Chinese University of Hong Kong, Shatin, NT, Hong Kong
 - **Research Scholar** (January-March, 2004), IMA (The Institute of Mathematics and Its Applications), University of Minnesota, USA
 - * Long Term Participant of IMA Annual Program of Probability and Statistics in Complex Systems: Financial Engineering, Communication Networks and Genomics
 - **Visiting Associate Professor** (July-September, 2001), Academy of Mathematics and Systems Science, Chinese Academy of Sciences, Beijing, China
- **Editors-in-Chief, Editors** (appointed in appointment letter or directly listed in journal’s website)

- **In International English Journals**
 - * **Editors-in-Chief**
 - International Journal of Information Engineering (2013-)
 - Journal of Advances in Applied Mathematics (2015-)
 - * **Guest Editor**
 - Special Issue on Mathematical Problems in Engineering, (Journal of) Engineering (2014)
 - * **Editors**
 - Wireless Engineering and Technology (2010-)
 - Open Journal of Optimization (2012-)
 - Journal of Man, Machine and Technology (2012-)
 - Science Road Journal (2013-)
 - Journal of Applied Mathematics and Physics (2013-)
 - German Journal of Advanced Mathematical Sciences (2014-)
 - * **Co-Editor**
 - Journal of Fundamental and Applied Sciences (2013-)
 - * **Past Editors**
 - Greener Journal of Computer Science (2011-2013)
 - Journal of Internet, Information and Communication Systems (2011-2013)
- **In International Chinese Journal**
 - * **Editor**
 - Journal of Statistics and Applications (2012-)
- **International Conference Chairs**
 - **Honor Chair**
 - * International Conference on Intelligent Cloud Computing (ICC 2016)
 - **General Chairs**
 - * 2018 Spring World Congress on Engineering and Technology
 - * 2017 Spring World Congress on Engineering and Technology
 - * 2016 Spring World Congress on Engineering and Technology
 - * 2015 Spring World Congress on Engineering and Technology
 - * 2014 Spring World Congress on Engineering and Technology
 - * 2013 Spring World Congress on Engineering and Technology
 - **Co-Chair**
 - * 2016 3rd International Conference on Computer Science and Application
 - **General Chair of Technical Programm Committee (TPC)**
 - * 2013 International Conference on Recent Advances in Physics
 - **(Invited) Special Session Organizers**
 - * SPDEs/SDEs and Stochastic Systems with Control/Optimization and Applications

- under The 11th AIMS Conference on Dynamical Systems, Differential Equations and Applications, July 1-5, 2016, Orlando, Florida, USA
- * Theory, Numerical Methods, and Applications of Stochastic Systems and SDEs/SPDEs
 - under The 10th AIMS (American Institute of Mathematical Sciences) Conference on Dynamical Systems, Differential Equations and Applications, Madrid, Spain, 2014
- **(Invited) Minisymposium Organizer**
 - * SPDEs/SDEs, Queues, and Optimization with Applications
 - under 8th International Congress on Industrial and Applied Mathematics (ICIAM), 2015
- **(Invited) Session Chairs**
 - * Queues and Operations Management
 - under The 8th International Annual Conference of Chinese Scholars Association for Management Science and Engineering (CSAMSE), July 25-27, 2015, Shenyang, China
 - * Mathematics in Science and Technology (SC17-05)
 - under International Congress of Mathematicians (ICM) 2014 , August 13-21, 2014, Coex, Seoul, Korea

• **Major Funded Projects and Awards**

- Optimal resource competition game and equilibrium controls in Generalized Internet of Things driven by Big Data and smart cloud computing, National Natural Science Foundation of China (2018-2021, project leader and principal investigator)
- Stochastic systems and optimal resource-performance controls in future wireless communication networks, National Natural Science Foundation of China (2014-2017, project leader and principal investigator)
- Optimal scheduling and resource allocation for the next generation ($4G^+$) wireless networks, National Natural Science Foundation of China (2010-2012, project leader and principal investigator)
- Stochastic optimal scheduling and resource allocation for wireless systems with base-station cooperation, State Key Laboratory of Novel Software Technology of China (2009–2011, project leader and principal investigator)
- Theory, method and applications of stochastic networks in modern informational systems, National Natural Science Foundation of China (2004-2006, project leader and principal investigator)
- Network modeling and implementation for multiclass queueing networks with finite buffers, Educational Ministry of China and Nanjing University (2000-2002, project leader and principal investigator)
- SimNet (won “Technology Transfer”), Multi-million U.S. dollar/multi-organization “lightning” research and development (R&D) project, (Alcatel-)Lucent Technologies Bell Labs/Newotrck Systems (1996-1998, principal investigator and developer, also technically coordinating and partially leading overall project system integration)

- IMA awarded funds for long term participant and 9 workshops (or tutorials) in the years of 1994, 2004, and 2012
- Outstanding Paper Award (First Class), 2008 Annual Conference on Probability and Statistics, International Institute for General Systems Studies in China
- etc.

- **Talks**

- **Invited Keynote and Plenary Speakers (around 50 minutes)**
 - * 2018 Spring World Congress on Engineering and Technology (SCET 2018), April 23-25, 2018, Quilin, China
 - * IEEE 7th International Conference on Power and Energy Systems, November 1-3, 2017, Toronto, Canada
 - * 2017 International Symposium on Applied Mathematics and Statistics (AMS 2017), September 24-26, 2017, Suzhou, China
 - * 2017 Spring World Congress on Engineering and Technology (SCET 2017), April 18-20, 2017, Chengdu, China
 - **Title:** Scheduling Game with Cloud-Computing Pools for Big Data: Fairness and Pareto Optimality
 - * 2017 International Symposium on Computational and Applied Mathematics (ISCAM 2017), February 26-28, 2017, Sanya, China
 - **Title:** MIMO Mutual Information Computation and Pareto Optimality of Scheduling Game by Reflecting SDEs
 - * International Conference on Intelligent Cloud Computing (ICC 2016), December 17-18, 2016, Wuhan, China
 - * 3rd International Conference on Computer Science and Application, November 12-13, 2016, Changsha, China
 - * International Conference on Wireless Communications and Network Technology (ICWCNT2016), June 25-27, 2016, Guangzhou, China
 - * International Conference on Network and Communication Security (NCS 2016), June 11-12, 2016, Beijing, China
 - * 2016 Spring World Congress on Engineering and Technology, April 17-19, Suzhou, China
 - * 5th Int'l Conference on Signal and Image Processing (CSIP 2016), March 2-4, 2016, Beijing, China
 - * 2015 Co-located and Interacted International Conferences on: Partial Differential Equations, Functional Analysis, Ordinary Differential Equations and Dynamical Systems, Groups and Algebras, Probability and Stochastic Analysis, Statistics and its Applications, July 19-21, 2015, Sanghai, China
 - **Title:** A Unified B-SPDE with Jumps vs. A System of Coupled FB-SDEs with Skew Reflections: Theory and Applications
 - * 2015 Spring World Congress of Engineering and Technology, 2015
 - **Title:** A unified B-SPDE with Lévy jumps: well-posedness, algorithm with numerics, and applications
 - * 2014 Spring World Congress of Engineering and Technology, 2014

- **Title:** Adapted solution, numerical methods and analysis via Malliavin calculus for a unified B-SPDE and their applications in finance
 - * 2013 Spring World Congress of Engineering and Technology, 2013
 - **Title:** Optimal rate scheduling via utility-maximization for J -user MIMO Markov fading wireless channels with cooperation
 - * 1th Annual Conference on Probability and Statistics, International Institute for General Systems Studies in China, 2008
 - * 7th Annual Conference of Chinese Probability and Statistics Society, 2002
 - * etc.
- **Specially Invited Session Talks (around 30 minutes)**
- * Probability Theory and Related Fields, December 26-29, 2016, Shenzhen, China
 - **Title:** Functional Limits for TSRRPs and SDEs with Skew Reflections
 - * SPDEs/SDEs and Stochastic Systems with Control/Optimization and Applications
 - under The 11th AIMS Conference on Dynamical Systems, Differential Equations and Applications, July 1 - July 5, 2016, Orlando, Florida, USA
 - **Title:** A Unified System of SPDEs with Lévy Jumps vs. Stochastic Differential Games
 - * 8th ICIAM (International Congress of Industrial and Applied Mathematics), Beijing, China, 2015
 - * The 8th International Annual Conference of Chinese Scholars Association for Management Science and Engineering (CSAMSE) July 25-27, 2015, Shenyang, China
 - **Title:** Queues and Stochastic Differential Games by Coupled FB-SPDEs/FB-SDEs with Jumps and Skew Reflections
 - * Institute of Mathematical Statistics (IMS)-China, Kunming, China, 2015
 - * Workshop on Markov Processes and Stochastic Models, Changsha, China, 2015
 - **Title:** A Unified B-SPDE with Jumps, Queues, and Stochastic Differential Games
 - * 4th Annual World Congress of Advanced Materials, Chongqing, China, 2015
 - **Title:** Unified SPDEs with Applications in Advanced Semiconductors and Smart IT Materials
 - * The 10th AIMS (American Institute of Mathematical Sciences) Conference on Dynamical Systems, Differential Equations and Applications, Madrid, Spain, 2014
 - * IMS (Institute of Mathematical Statistics)-China 2013
 - * INFORMS International Beijing 2012
 - * INFORMS International Hong Kong 2006
 - * International Conference of Management Science and Applications, 2005
 - * 12th Informs Applied Probability Conference, Beijing, 2004
 - * 8th Informs Applied Probability Conference, Atlanta, U.S.A., 1995

* etc.

– **Other Recent Invited Talks and Presentations**

- * International Congress of Mathematicians (ICM) 2014, August 13-21, 2014, Coex, Seoul, Korea
- * 20th Conference of The International Federation of Operations Research Societies (IFORS 2014), Barcelona, Spain, 2014
- * IMA Workshop on Theory and Applications of Stochastic PDEs, Minneapolis, U.S.A., 2013
- * 8th World Congress in Probability and Statistics, Istanbul, Turkey, 2012
- * IMA Workshop on Random Dynamical Systems, Minneapolis, U.S.A., 2012
- * IEEE/EII 2011 Conference on Applied and Engineering Mathematics, 2011
- * IEEE/EII 2011 World Congress of Engineering and Technology, 2011
- * 2011 International Conferences on Network Computing and Information Security and on Multimedia and Signal Processing, 2011
- * 9th Annual Conference of Chinese Probability and Statistics Society, 2010
- * WRI International Conference on Communication and Mobile Computing, 2009
- * International Conference on Bioinformatics and Biomedical Engineering, 2009
- * 8th Annual Conference of Chinese Probability and Statistics Society, 2006
- * 12th INFORMS/APS (Applied Probability Society) Conference, 2004
- * Stochastic Networks Conference, Stanford University, U.S.A., 2002
- * 10th International Congress on Computational and Applied Mathematics, University of Leuven, Belgium, 2002
- * International Congress of Mathematicians (ICM) 2002, Beijing, China
- * etc.

 - * Online available at <http://arxiv.org/pdf/1410.0992v1.pdf>

- “Unified Systems of FB-SPDEs/FB-SDEs with Jumps/Skew Reflections and Stochastic Differential Games”, 58 pages, arxiv, first version published on June 16 of 2015
 - * Online available at <http://arxiv.org/pdf/1506.04525.pdf>
- “White noise analysis for fractional Levy processes and its applications”, SCIENCE CHINA Mathematics, Accepted, 2016 (jointly with Lu)

• **Major Supervising and Teaching Experiences**

– **Post-Doctor Fellow Supervised**

- * Xuebin Lü
- * Title of Defense Talk
 - Fractional Lévy Noises and Stochastic (Ordinary and Partial) Differential Equations (December, 2011, Nanjing University)

– **Funded Kernel Graduate-Level Course for Excellence**

- * Stochastic Processes
 - Funded by and Practised in Nanjing University

– **Graduate-Level and Undergraduate-Level Courses Taught**

- * Stochastic Differential Equations
 - Teach in every Spring term since 2007
- * Stochastic Processes
 - Teach in every Fall since 2000
- * Applied Stochastic Processes
- * Probability Theory
- * Probability Measure Theory
- * Stochastic Operations Research
- * Integral Global Optimization
- * Time Series Analysis
 - Taught 3 times
- * Statistical Computing and Softwares
 - Taught 3 times
- * Mathematical Statistics
- * Probability and Statistics
- * etc.

• **Honors and Duties in Academic Societies**

- **Member and Group Leader:** Judge Committee of National Natural Science Awards of China
 - * A member of Judge Committee in Mathematics of National Natural Science Awards of China

- * The leader of Stochastic Analysis Group of Judge Committee in Mathematics of National Natural Science Awards of China
- * A review expert for National Natural Science Awards of China
- **Review Expert of Key Projects:** National Natural Science Foundation of China
 - * including National Outstanding/Excellent Young Research Fund Projects
- **Director:** Chinese Society of Probability and Statistics
- **Standing Director:** Chinese Society of Engineering Probability and Statistics
- **Standing Director:** Chinese Society of Stochastic Service and Operations Management (formerly Chinese Society of Queuing Theory)
- **Standing Director:** Chinese Society of Intelligent Industrial Data Analytics and Optimization
- **Standing Director & Member of Academic Committee:** International Institute for General Systems Studies–Probability and Statistics Society in China
- **President:** Jiangsu Society of Probability and Statistics
- **Vice President & Chairman of Information Technology Committee:** Jiangsu Society of Applied Statistics
- **Standing Director & Member of Academic Committee:** Jiangsu Society of Industrial and Applied Mathematics
- etc.

- **More Editorial Experiences**

- **In International English Journals**

- The 2nd International Conference on Mathematics Research and Application (ICMRA2014)
- 2013 International Conference on Management and Information Technology
- 2nd International Conference on Control Engineering and Communication Technology (2013)
- 2013 International Conference on Materials Science and Applied Mechanics
- 2013 Conference on Computational Mechanics
- International Conference on Mathematics and System Science (2013)
- 2012 (IEEE/EII) Spring World Congress on Engineering and Technology
- 2012 IEEE International Conference on Electronics, Information and Electrical Engineering
- 2012 IEEE International Conference on Electronics Design, Systems and Applications
- 2012 IEEE Conference on Control, Systems & Industrial Informatics
- 2012 IEEE Symposium on Wireless Technology & Applications
- 2012 IEEE International Conference on Control Engineering and Communication Technology
- 1st International Conference on Mechanical Engineering and Material Science (MEMS 2012)
- 2011 (IEEE/EII) World Congress on Engineering and Technology

– **Reviewer for Journals and International Conferences**

- * IEEE Transactions on Automatic Control
- * IEEE Transactions on Mobile Computing
- * Operations Research
- * Queueing Systems

- * Journal of Applied Probability and Statistics
- * Mathematical and Computer Modeling of Dynamic Systems
- * Performance Evaluation
- * Zentralblatt MATH
- * Mathematical Reviews
- * Mathematical Journal
- * Journal of Applied Mathematics and Computing
- * Engineering Mathematics
- * Journal of Systems Science and Complexity
- * Systems Engineering: Theory and Practice
- * IEEE INFOCOM Workshop on Cognitive & Cooperative Networks
- * American Control Conference
- * European Control Conference
- * WRI International Conference on Communication and Mobile Computing
- * International Conference on Bioinformatics and Biomedical Engineering
- * International Conference on Network Computing and Information Security
- * International Conference on Multimedia and Signal Processing
- * IEEE Asia-Pacific Conference on Applied Electromagnetics
- * IEEE Symposium on Wireless Technology & Applications
- * IEEE International RF and Microwave Conference
- * etc.
