Professor Zhi-Wei SUN  
Department of Mathematics  
Nanjing University  
Nanjing 210093  
PR CHINA

Dear Professor Sun,

I am grateful to you for your letter of 2001-03-30 and for your interesting paper "Exact  $m$ -covers of groups by cosets". I am afraid I am unable to make any headway with your conjecture, but hope you will prove it in a finite time.

I shall gladly put your name forward for a visit to the Australian National University; but to do that I need your *curriculum vitae* and list of publications; and I can not promise to be successful.

Yours sincerely,
